

HEAVY DUTY DEGREASERS/CLEANERS

ALTASOLVE HD INDUSTRIAL DEGREASER/CLEANER		A heavy duty solvent degreaser that is designed to remove tough soils like bitumen, grease and oil. A blend of natural and synthetic hydrocarbons will penetrate and lift the toughest of soils. An economical solution that can be used for degreasing parts, equipment, tank and vessel circulation cleaning.(514)

BIG RED INDUSTRIAL DEGREASER/CLEANER		Big Red CFIA Approved. This concentrated water based degreaser is specially designed for fast and effective removal of grease, oil and dirt. With a unique blend of surfactants and powerful grease-cutting agents, this product quickly penetrates and emulsifies grease and oil from most surfaces. This product may be used in a broad spectrum of applications in various industries, including garages, factories, industrial shops, and warehouses. For specific use in food plants, see directions.(0501) (514)

HEAVY DUTY DEGREASERS/CLEANERS

BIOSOL 310 LEVASOL DEGREASER	
PART NO.	SIZE
ACL-BS310-20	20 LITRE PAIL
ACL- BS310-205	205 LITRE DRUM
ACL- BS310-1025	1025 LITRE TOTE

Contains a unique blend of organic solvents, surfactants, emulsifiers, chelates and corrosion inhibitors that ensure faster, less labor intensive cleaning. Excess moisture is dispersed very quickly to accelerate drying time and a protective finish inhibits flash rust on exposed metals. And, of course, there are no hazardous fumes or hidden toxic by-products. Fully biodegradable, user safe and improves work site safety. Rig washing in oil & gas operations.

Product Applications

-) Rig wash, invert muds, pumps and equipment
-) Mining equipment (surface & underground)
-) Marine and forestry equipment
-) Machine shops, drill presses, shop floors & walls
-) Motors, machinery, and manufacturing tools
-) Ultrasonic tanks, generators
-) Food safe for use in camp kitchens
-) Food & meat processing equipment
-) Animal fats, blood, protein deposits
-) Lubricants
-) Printing press maintenance (water-based inks)
-) Wireline trucks & equipment
-) Frac trucks & equipment
-) Oilfield tools

BIOSOL 610 HYPERSOL DEGREASER	
PART NO.	SIZE
ACL-BS610-20	20 LITRE PAIL
ACL- BS610-205	205 LITRE DRUM
ACL-610-1025	1025 LITRE TOTE

A powerful combination of organic, inorganic and synthetic solvents that stand up to the toughest degreasing challenges. Yet, it does not contain the carcinogens or hidden toxins often associated with their use. It's also 100% active – meaning that it contains absolutely no water. Count on BioSol™ 610 to quickly dissolve oil, grease, asphaltenes, wax, adhesives and organic materials. And, a special blend of additives ensures a clean, residue-free rinse.

Product Applications

-) Drill rig degreaser (invert muds), Service rigs, downhole tools
-) Marine vessels, storage tanks, cargo holds, turbines & hoses
-) Oilfield equipment, bulk carrier tank cleaning, Oil Tools
-) Machine shops, steel fabricators
-) Road construction, heavy machinery, tar removal
-) Pulp & paper mills, forestry equipment (including blades)
-) Mining equipment (underground & surface)
-) Automotive detailing & repair
-) Oil tanks, cylinder heads, generators
-) Crude oil, asphaltenes, bitumen, tar
-) Grease, hydrophobic paraffin's

HEAVY DUTY DEGREASERS/CLEANERS

BIOSOL 615 VICOSOL DEGREASER		<p>Biodegradable solvents, surfactants and emulsifiers to produce a powerful degreasing syrup that literally defies gravity. Clings to any surface, ensuring maximum contact. Powerful ingredients go to work methodically stripping layers of crud until the original surface shines through. Quickly dissolves oil, grease, asphaltenes, wax, adhesives and organic materials, allowing for an easy rinse.</p> <p>Product Applications</p> <ul style="list-style-type: none">) Solvent based graphite, Machine shops, steel fabricators) Paving equipment, heavy machinery, tar removal) Oilfield service rigs, downhole tools, equipment, oil tools) Mining equipment, Marine vessels) Cylinder heads, generators, oil tanks) Cargo holds, bilges, storage tanks, turbines) Crude oil, asphaltenes, bitumen, tar) Grease, distillates, mineral oils, paraffin's

BIOSOL MEGASOL HEAVY DUTY DEGREASER	
PART NO.	SIZE
ACL-BSMEG-20	20 LITRE PAIL
ACL-BSMEG-205	205 LITRE DRUM
ACL-BSMEG-1025	1025 LITRE TOTE

A breakthrough technology that provides a powerful solution to effectively and safely deal with any combination of soil, mud or sand mixed with heavy oils. Other products are designed to effectively clean either soils or heavy oils, but not necessarily both at the same time. These powerful surfactants and wetting agents aggressively penetrate through almost any kind of soil, leaving it soft, pliable and easy to rinse. Powerful yet safe synthetic and organic solvents break up and emulsify heavy oils such as bitumen and tar. Designed to inhibit corrosion, eliminate static electric charge, and prevent the redistribution of soils. Whether faced with invert mud, dirt mixed with heavy oil, tar sands or any other scenario with such mixtures.

Product Applications

-) Oil sands, bitumen, heavy crude, Industrial grease
-) Heavy haulers, shovels, dozers, Graders, backhoes, loaders
-) Engine compartments, undercarriages
-) Swing gears, suspensions, hydraulic tanks
-) Pumps, motors, light vehicles
-) Oilfield equipment, service rigs, downhole tools, BOPs
-) Mining equipment (underground & surface)
-) Sludge & oilfield tanks – asphaltenes, waxes & heavy oil buildup
-) Heavy manufacturing – steel plant, tire plant, rubber plant
-) Pipeline manufacturing and repair

Oil & Gas refineries & Smelters

BIOSOL TARSOL COAL TAR CLEANER	
PART NO.	SIZE
ACL-BSTAR-20	20 LITRE PAIL
ACL-BSTAR-205	205 LITRE DRUM
ACL-BSTAR-1025	1025 LITRE TOTE

Specifically designed to DISSOLVE AND CLEAN TOUGH COAL TAR AS WELL AS APHALTENES AND HEAVY WAXES. Environmentally safe product, being biodegradable with a low bioaccumulation potential. It works fast and rinses free, effectively dissolving coal tars, carbon blacks and heavy waxes, TarSol also works extremely well in removing aged tar that has been exposed to the atmosphere for extended periods of time. With an unmatched HS&E profile TarSol is a safer alternative to other products on the market, used in similar applications. Even old asphalt with stubborn polymers can be removed with ease. TarSol is also useful in Carbon black manufacturing plants to remove and / or soften heavy crude.

Useful in the Following Industries

Mining, Oil Refining, Transportation, Construction

Product Applications

-) Coal tar removal, Cleaning liquid tar equipment
-) Tar and emulsions, Cleaning liquid tar equipment
-) Carbon black manufacturing to remove/soften heavy crude
-) Cleaning lines in asphalt plants
-) Breaking down samples in asphalt testing labs
